Pricing above is for pinch pleated drapery.

Note: To price draperies using 118" or 126" fabric use length for width on chart, widths remain the same. (resulting in pattern being railroaded for fabrication purposes)

OPTIONS:

-RF- ***Ripplefold Options see supplemental chart on pages 23 & 24***

-AF- ***AccordiaFold Options see supplemental chart on pages 23 & 24***

(Substitute -RF or AF for -PP when specifying Ripplefold or Accordiafold Options)

-B3- ***For 3-Pass Blackout Lining Option See Chart On page 25***

(Substitute -B3 for -B2 when specifying 3-Pass Blackout Lining)

-BD ***For Baton Draw draperies add $ 2.50 per Panel/ $5.00 per Pair***

(Add - BD as last suffix if Baton Draw is specified)

Add 1" if fabricating for 94001 Architrac.

ROD SIZE PER PANEL

To determine the number of widths needed in the drapery(with standard returns):

1. Measure the rod face. If specifying a pair divide by 2, if specifying a panel refer to chart
2. Look up on the left side of chart until you come to rod size determined, add 6" for side hems (if figuring a pair multiply by 2) If rod is at highest number drop to next
3. Move to Fabric Hemmed Width column and divide width of fabric into the number and round up to nearest half width. (For pairs multiply by 2)
4. For stiff or springy fabrics or baton draw track, always increase by dropping down one space on chart.
